Lemgo, the 20th of August 2018.

Dear Sir, the Prosecutor,

I am hugely honoured to transmit herewith a request of a complaint related to an encroachment or theft of one of my sensational archaeological discoveries, which will shock the world in due course because of its wide repercussions worldwide throughout the whole inhabited earth.

This is my discovery of the Cave of Hercules and the Table of Solomon in the city of Toledo.

This story takes some telling, therefore I shall summarize it for you in any more detail with brief words and comments in this respect.

I studied in Toledo and as a child I grew up there and I had and continue having there a very peculiar gift. For this reason, even as a child I knew about various issues and certain locations in the city of Toledo, including the Cave of Hercules and the Table of Solomon, as well as other sensational discoveries which will create a commotion and that is why they will shock more at a specific point in time when these discoveries will logically and naturally be exposed to the media and the public. Thus, in first instance some years ago I was in contact with the mayor of Toledo, Mr. José Manuel Molina, and his press department, who already were aware I knew the entrances, because there are several entrances through tunnels of Toledo, as I know the entrances to the Cave of Hercules and the Table of Solomon, as well as a Robot built by the king Solomon, which protects the Table or technically named in more modern terms Chronovisor of Solomon.

I received several emails from the City Council of Toledo of the ex-mayor, Mr. José Manuel Molina, and his Press Department sent me several electronic mails, telling me that they knew about my discovery of the Cave of Hercules and that they

were aware and felt sure that I knew the sites and entrances to the Cave of Hercules. For this reason, they asked me for information and plans of the entrances in this respect to “help me”, according to them, to make the Cave of Hercules and the Table of Solomon public through one of the entrances to the Cave of Hercules, this is logical and normal; however, I sent them as much information as I could about one of the entrances on the alley of San Ginés, number 3, and the City Council of Toledo quickly wrote to me and I was filled with consternation at the answer not to go to Toledo anymore and at the news of the quick request of several millions Euro by the City Council before the Consortium of Toledo to build on the place I told him about the entrances to the Cave of Hercules, alley of San Ginés, 3, a public museum and they told me not to go to Toledo anymore, otherwise, I would be imprisoned.

I sought assistance from a lawyer of Toledo, Mr. Oscar Marín, in order to talk on my behalf to the ex-mayor of Toledo about my discovery of the Cave of Hercules and the encroachment of my Discovery. Said lawyer talked to the ex-mayor of Toledo – I say ex-mayor-, Mr. José Manuel Molina. Afterwards he was removed from the mayor’s office for reasons of embezzlement, and the ex-mayor of Toledo, Mr. José Manuel Molina, threatened my lawyer, Mr. Oscar Marín, to ruin his life and his career in case he even talked with me again about anything relating to the Cave of Hercules. Thus, my attorney, Mr. Oscar Marín, wrote to me, completely terrified, to tell me he was very afraid and he had been threatened to ruin his life and his career, and he didn’t dare to continue defending my case because there were very mighty people involved in Toledo and he was afraid of losing his career, even his life.

My efforts writing to the City Council of Toledo were vain, as they didn’t write back to me anymore; on the contrary, both the City Council and the Consortium of Toledo continued requesting millions of Euro before the Spanish government to build a public museum on the place I indicated to them on the alley of San Ginés, 3, quickly bricking the tunnels up which lead to the Cave of Hercules and the Table of Solomon with a vitrine made of bulletproof glass and equipping the museum with an unheard-of surveillance.

I send you all this information, I have hundreds of documents of different personalities from Spain and abroad, even from the Spanish Parliament of Madrid, who recognize me as the discoverer of the Cave of Hercules, even of the ex-president of Castilla-La Mancha, Mr. José Bono, even from the Congressmen from Toledo, and even of the Ombudsman of Castilla La Mancha, Mrs. Henar Merino Senovilla, even from the Ombudsman of the European Union, of the former king Juan Carlos and the former queen Sofía at the time, even from the ex-president Mr.

Rodríguez Zapatero, from several personalities and psychologists from Spain and abroad who know me as discoverer of the Cave of Hercules.

All this has been an outrage and a fraud of gargantuan proportions by the ex-mayor of Toledo and, of course, half of the above mentioned millions requested from my discovery to build a public museum will have disappeared, something which in the future will shock not only Toledo, but also Spain, because he is one of the most gigantic criminal offences which many politicians have made until the present day.

It could take a long story. Notwithstanding, I send you half of the many different documents on the subject I have in order that you yourself can check and verify it. Hence, Your Excellency, my request is this:

After careful consideration of the documentation I send to you, I even have with me twice the documents and more if you need it, all of them related to my discovery of the Cave of Hercules, and this is why I request and ask you for to study this case of encroachment of my discovery, abuse of power and theft not only from me, but also from the whole of Spain because the discovery of the Cave of Hercules is heritage of the Toledan people, of the Spanish people and this is why I ask in this manner, please, whether you could be so kind and cordial of allowing me the privilege of doing justice for me and restore not only the right of discoverer, which belongs to me by legal right, but also please resolve this matter because it is obvious that the whole of Spain must now about this issue and must not keep it silent due to usurpers and corrupt people, of who there is currently an abundance in Spain.

Dear Prosecutor, please, I beg for the justice for me, I am the discoverer of the Cave of Hercules, I have many more sensational discoveries in Spain given that I have the capacity, a supernatural gift to perceive certain sensational sites, I even know in Spain where King Solomon brought for its security the Arch of the Covenant after the temple of Jerusalem was burnt twice in the Biblical history, I even have discoveries of gigantic beings put in urns of stone within rocks which are located in different places of Spain and other countries of the world, and you will realize and see that under each monastery, church and crypt of the cathedrals and next to each hermitage there are rocks with special marks and bar codes with perfectly conserved bodies inside and they are venerated by the Catholic Church and other religions and satanic and occultist sects and they sacredly worship them and do other mystical ceremonies in reverence to these bodies inside which were put by their parents before the Flood of Noah thousands of years ago to prevent their drowning.

This will come to you as a surprise, dear Prosecutor, but please consider it carefully, and please do justice for me, because I have gathered until now many followers and collaborators in the whole of Spain and in the rest of the world, who unconditionally support me, I even have in mind this month an interview with some of them in Toledo on the 26th of this month, Sunday, at 12:00 at Zocodover Square in Toledo, because all over the world thousands of friends and collaborators are currently supporting me unconditionally, distributing pamphlets and making propaganda for me day and night, in Spain, as well as across South America and North America in order that such a great discovery is made public, as well as the other sensational discoveries which have prompted a great deal of interest among many different organizations from all over the world, especially, the Vatican and other different organizations, satanic sects, kings and occultist organizations and secret societies, which don't exactly have much interest in rewriting the history of humanity, since the 90% is little explained and written, everything is a lie and fraud as the holy scriptures say „The world is governed by demons,,.

1 Letter of John, chapter 5, verse 19.

Some days ago my representative and coordinator in Toledo, Spain and the rest of the world, the researcher Mrs. Virtu Pontes, tried to get in touch with the current mayoress of Toledo, Mrs. Milagros Tolón, by a telephone call to the City Council to arrange an appointment in order to talk about the problem of my discovery of the Cave of Hercules, but they didn't make it possible for her to set an appointment, threatening her to call the police in case she tried to contact her again, because they said there was "A threatening letter to the mayoress"; I also tried to call the mayoress to set this appointment with the mayoress, but without success, they ended up threatening me too, saying in the same manner there was a threatening letter to the mayoress, what surprised me and is nothing new to me, I have the recorded recordings, should you wish to listen to them in due course in order to investigate the gigantic conspiracy existing in Toledo concerning my discovery of the Cave of Hercules.

Once more I say farewell, and I beg you, please, dear Prosecutor, study this great case, which will eventually be spectacular, I send you all this additional documentation, and as I tell you, I have more documents, many more than I could send you from the years I have been fighting for my rights of discoverer to be recognized, in order that they are acknowledged in my favour, given that they have been stolen and usurped from me with acts of terror, threats and the most rampant corruption.

This is all for the present, dear Prosecutor, I look forward to your news and I hope they will be very positive, and remaining at your complete disposal I say farewell with all great respect.

Accept, Sir, the assurances of my highest consideration,

Alberto Canosa.
